Desks + Workstations

In today's fluid work landscape, employees need a variety of individual work areas to choose from, based on the task at hand. This may range from freestanding or mobile workstations for concentration, benching options that allow connection while still providing separation, or dynamic executive settings. Height-adjustable surfaces add even more variety by allowing for healthy postural changes throughout the day. Each element harmonizes to create modern work environments that enable people to work healthy and move seamlessly between independent and interactive work modes.
